

TECHNICAL DATA SHEET

FUR COLOR GL

CHARACTERISTICS

Manufactured with the latest production technology, which allows a very fine distribution of the pigment, the Fur Color GL has a good hiding power; it has a very soft hand, leaving out the original design of the skin. The colours are vivid and bright, all mixed together in 14 basic colours.

APPLICATIONS AND DOSAGES

The Fur Color GL is used predominantly with spray gun. The high concentration of the product allows to obtain, where needed, a light finish. Diluting with water, it becomes very fine. In any case, to obtain good results, we recommend the application into multiple steps.

Spry Fur Color GL over the entire surface of the fabrics without go over the parts already wet. Let dry and repeat until desired coverage. After the application is recommended Fixing Fur.

CONTENTS/ TECHNICAL DATA

Appearance: coloured viscous liquid
Odour: yes

DIRECTIONS

Temperature min. + 5 ° C
Store preferably in a cool place.
Stock: 12 months.
